

Dr. Caitlin R. O' Grady

Dr. Caitlin R. O' Grady is a trained conservator and conservation scientist. She is currently a Lecturer in Conservation at University College London's Institute of Archaeology where she teaches in the postgraduate conservation programmes and is Affiliate Tutor and Director of Conservation. In this capacity, she also manages the FTIR and Raman instrumentation in the Institute's Wolfson Archaeological Science Laboratories. Caitlin received her BA in Art History from Case Western Reserve University, a MA in Art History and Advanced Certificate in Objects Conservation from New York University and a PhD in Materials Science and Engineering from the University of Arizona. She is the Editor-in-Chief of the Journal of Conservation and Museum Studies, a fellow of Advance HE and Adjunct Materials Scientist for Art Conservation Group.

Caitlin has extensive experience working as a conservator and conservation scientist on archaeological projects in Albania, Belize, Guatemala, Peru, and Turkey. Currently, she is the Director of Conservation for the Koç University Kaymakçı Archaeological Project in western Turkey, where she is responsible for managing the conservation of artefacts and immovable heritage recovered on site. Caitlin's research interests include the disciplinary histories of conservation/conservation science and their intersection with that of archaeology, as well as the preservation and scientific analysis of ceramics, historic conservation materials, lime-plaster wall paintings, and mudbrick. She has published extensively on the history of conservation, as well as research related to ceramics, wall paintings and mudbrick.
